

**CSE 215L: Programming language II Lab**  
**Faculty: Dr. Mohammad Rashedur Rahman (RRn)**  
**Sec: 09**  
**Lab - 13 [Inheritance], Summer-2020**  
**Lab Instructor: Md. Mustafizur Rahman**

**Objective:**

- To define a subclass from a superclass through inheritance
- To invoke the superclass's constructors and methods using the super keyword
- To override the instance methods in the subclass

**Task:** Implement the following classes and test their methods.
